

The Madrinatas Coaching Corner!

July 2016

Madrinas wants to help you be the very best version of yourself as a leader, executive and whole person.

We are excited to offer Madrinatas members an added benefit, the Madrinatas Coaching Corner. The Madrinatas Coaching Corner is a program whereby Madrinatas members have access to certified and experienced coaches to accelerate their development. In the coaching process, you have the opportunity to:

- Experience 1:1 or group coaching sessions.
- Identify new and/or reinforce leadership competencies crucial to your success.
- Identify and leverage your strengths and further improve performance.
- Receive fresh perspectives, support and feedback on specific work challenges or skills (e.g. Leadership Skills, Conflict Management, Team Building)

Our vetted coaches act as independent contractors from Madrinatas and any contact with a coach is an entirely private transaction between the member and the coach. Additionally, any coaching fees are settled by the member and their selected coach.

We want to hear from you, your reaction to the coaching experience and/or process.

Be a part of thought provoking, engaging and inspiring conversations through the Madrinatas Coaching Corner.
